Subject: Miliband call

The Miliband letter on Yemen you received tonight contains his proposal for how to structure the Yemen meeting in London.

Apologies for the unsolicited and perhaps utterly obvious recommendation, but here goes: [redacted] B5
[redacted] I'd recommend that you tell him that you'd like to give the meeting (participation, agenda, etc.) some thought and to engage in some discussions here.

You could discuss with [redacted] later in the morning and then have Phil or others get back to their counterparts after you've decided how you think this is best handled. B5
