**Subject:** just one quick thought especially in light of recent events... Sid

B6

Your speech tomorrow should be crystal clear, explicit and tough on China and spell out the economic consequences not just for the Chinese and their future but for the economic future of ordinary working people in the USA and their stake in successful diplomacy on the issue and why their future is the basis of our national interest. The future of the middle class is the future of the United States; the interests of the middle class are at the heart of the national interest, etc. Sid
