Thank you for that I think it was his office rather than the Crown Prince himself who met your staff. All is very well and the mobile phone project is really developing in a fantastic way can't wait for you to launch it in the autumn

As you know I have good links to the Qataris. Sheikha Mosah's son is the 31/32 year old Crown Prince and she is keen that he starts to build a wider international profile. He has been appointed head of the Qatar National Food Security Programme which is designed to deal with Qatar's food security issues its a \$30 billion programme. He is aware that food security is an issue you are majoring on and would love to meet with you in person to discuss this and to explore potential partnership areas between US and Qatar including possible participation in the US/World Bank Food Security Fund. He is also keen to talk more generally about US/Qatari cooperation and even suggested they could help out with the Oil spill problem. There is apparently a Arab Food Security Summit in October 2010 and he would like to discuss Us participation in that too.

IS a meeting possible [redacted] Or maybe we could set up an initial phone call.

Can you let me know if this appeals to you at all?
