Tech Task Force Update
January 17, 2010

1. Text 'Haiti' to 90999:

* We have raised \$21.4mm. This is historic. Big surges as a result of the NFL PSAs.

B5
B6

B6

* I didn't watch the Golden Globes but looking at the data, I don't think they made an announcement, but the #s are still strong

2. SMS 4636 info project (where people in Haiti can text and report needs and locations):

* 707 texts were rec'd, 402 were deemed useful, 125 had enough details that volunteers on the ground could plot the longitude and latitude to find them quickly

* Only works on Digicel. Comcel/Voila are evaluating

* Trying to get Wyclef and radio stations to start promoting

* Data is currently going to Reuters Emergency Service, InSTEDD and ICRC

* We're working on getting it to USAID

* Note, this effort is brand new and entirely volunteer run

* Breakdown of types of calls:

28.06% Missing Persons

12.23% Water shortage

10.07% Food distribution

10.07% Asking to forward a message

9.35% Earthquake and aftershocks

5.04% Persons News

4.32% People trapped

3.60% Emergency

2.88% Health services

2.16% Medical Emergency

2.16% Died bodies management

2.16% Response

1.44% Looting

1.44% Shelter

5.04% Other

3. WeHaveWeNeed (Craigslist for Haiti):

* Quietly launched (DO NOT MENTION PUBLICLY)

* Working on beta testers

*

* May launch tomorrow
