Let's hear it for the nuns--I knew when they came out, the die was cast and Bart would get his knuckles rapped. Now, let's wrap this up in the Senate and go drink something unhealthy! All your AIPAC friends told me you're doing well so take care and keep going--w the wind at you back and my fervent cheers--Hillary

Smithsonian--- Ripley. Center. Gives the 250 year history of. Nuns in. Usa. And their role in shaping. Our country and producing 1000s of women leaders with names like. Pelosi. Mikulski. FerrarO.
