B6

It has, as always, been a joy to have you on the team. We've worked together for so long, that I always feel better when I know you're there--putting words in my mouth and watching my back.

I enjoyed our talk and was delighted to hear about all you're planning to do--especially on the sports front. Just goes to show, once a jock always a jock!

Thx too for the rescue effort you're doing on the QDDR article.

Subject: Most importantly....

I enjoyed our talk too, but forgot to mention the most important thing of all -- how much I appreciate your bringing me to State and giving me this opportunity. I have learned so much, meant so many smart and capable people, and hope I have contributed in some small way to what you are working so hard to accomplish.

I'll write a formal letter for "the file" when I leave conveying all of these thoughts,, but I wanted to say something in person too.

Unfortunately, I got carried away on sports diplomacy and everything else andanother senior moment!

I'll let you know when I have had a chance to talk to Judith and Ann about the ideas I'm putting together on sports. I do think there is potential to do much more than is being done now -- and more creatively.
