**Subject:** NGO Update

B6

Two separate groups (foreigners, amcits) en route to the airport. They will rendezvous at a hotel near the airport because of traffic in town and hold there until given the final order to proceed. A lot could still go wrong but it looks as if the names are being removed from the exit control list. Press is in the vicinity of terminal four, where our plane is parked.

I gave Lorne an update when he called a few minutes ago.
