

RELEASE IN PART B5,B6

**MEMORANDUM TO CHERYL MILLS**

Date: March 9, 2012

Subject: Candidates for Membership to the U.S. National Commission for UNESCO

---

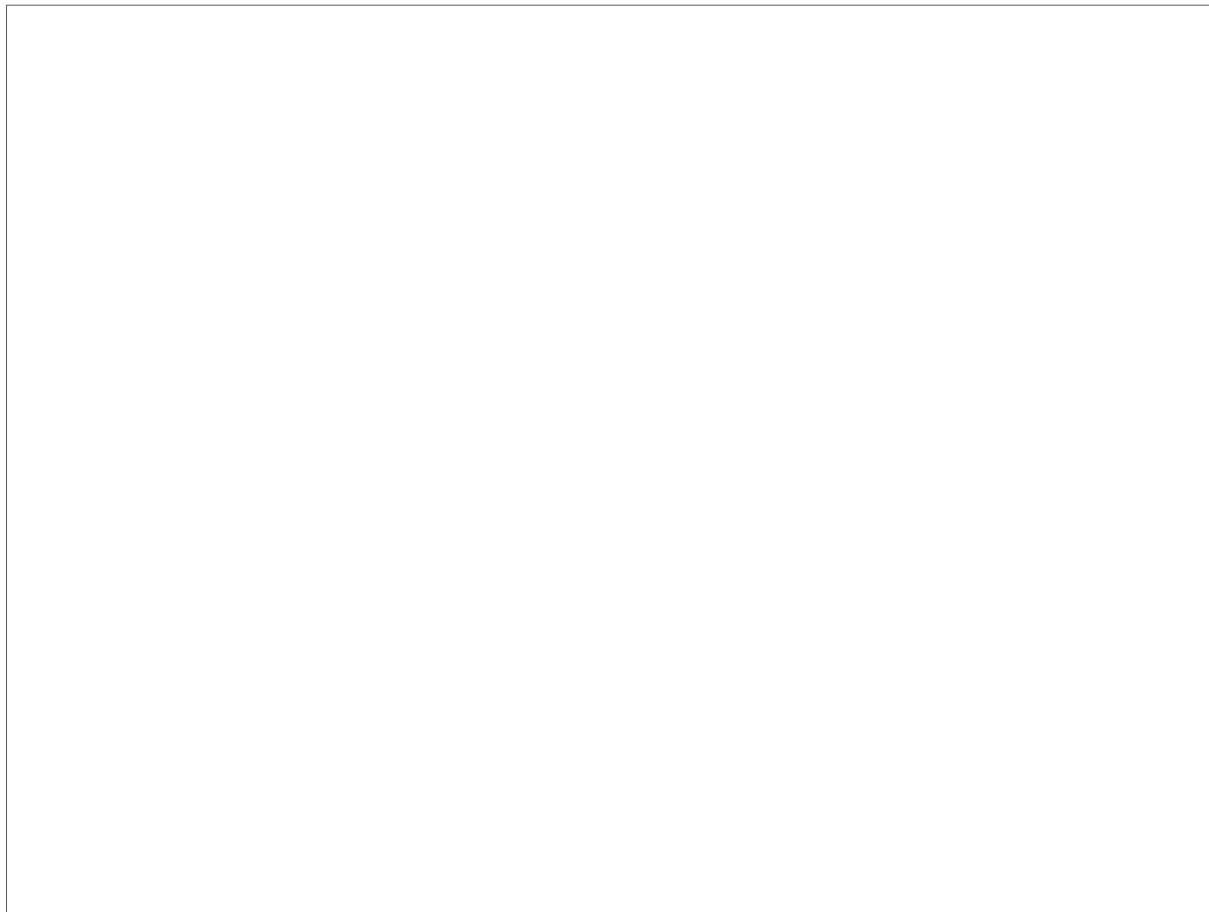

The U.S. National Commission for UNESCO is a State Department federal advisory committee that supports worldwide humanitarian development and values by coordinating efforts and delivering expert advice from federal, state and local governments and from the NGO community on issues of education, science, communications and culture.

Appointments to the Committee are made by the Secretary. This year, the Secretary can appoint up to 16 members from the NGO community, 12 state and local representatives, 3 federal representatives, and up to 8 members at large.

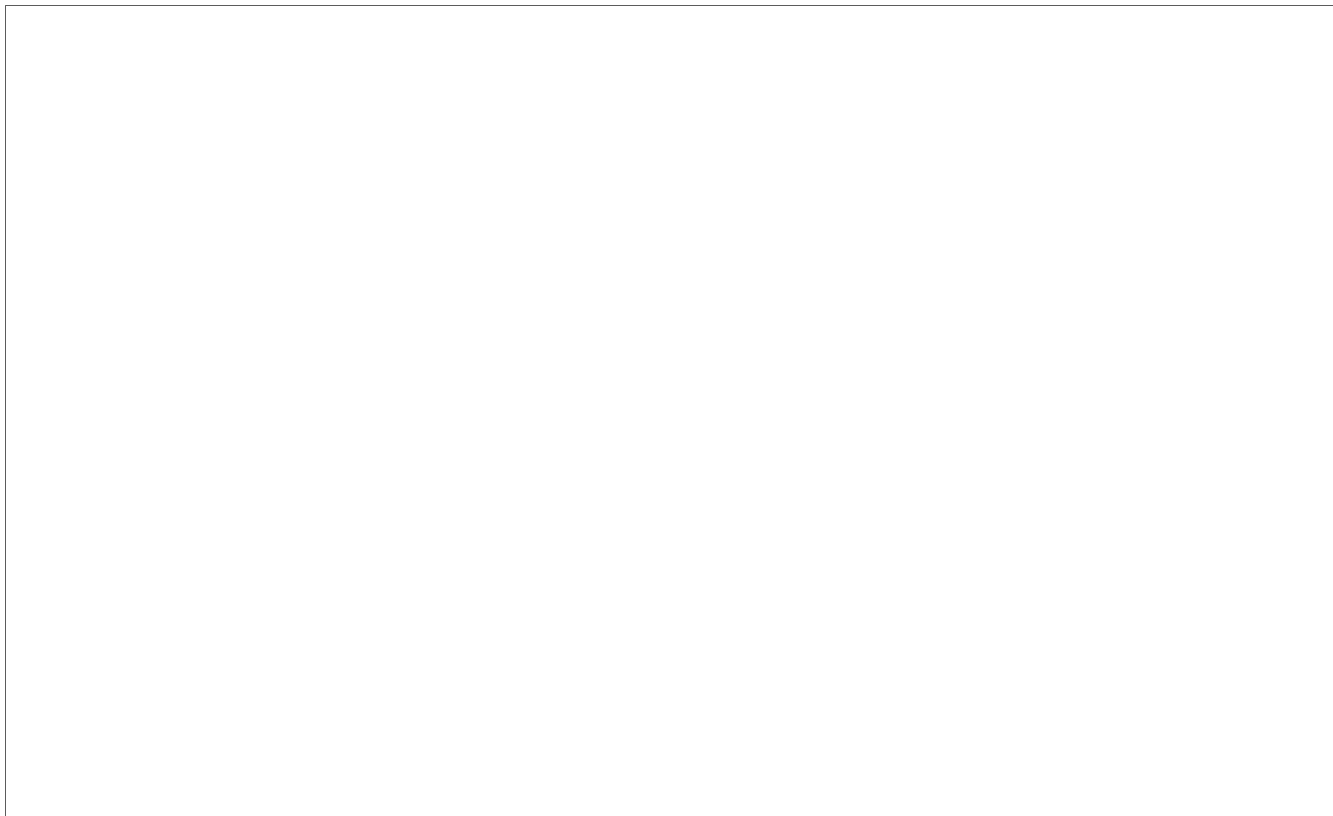

Below is a list of recommended members comprised of recommendations by both WHL and IO. All have been vetted by WHL. I included information that came up in select vets below as an fyi, but do not believe any to be disqualifying. If you approve of this list, we will move forward with processing their appointments.

**Recommended Members for Appointment for 2012**

**NGO Community (13)**
