I just left Somaly Mam and her girls.

They wanted to be remembered to "Mother Hillary." Alice Kandell bought them a new refrigerator and a big screen TV so they have some new improvements. What an amazing place!

I also met with the land rights women on whose behalf you intervened and I'm bringing back a scarf they knitted for you in prison. The whole land rights issue has got to be fairly addressed in Cambodia and it will require effort on many levels with help from many partners.

Good luck in Cairo --- not an easy mission.
