Subject: Miscellaneous items for S mtg w/Thein Sein

All: Just finished mtg w/U Soe Thane. He outlined three items TS intends to raise during the mtg this afternoon (may be more but these were three he spotlighted from notes).

One concerns desire for a Fulbright School in Burma akin to what has been established in Vietnam (Saigon) that trains govt officials. It's USG funded and organized in collaboration w/Harvard. I don't know much about it but perhaps other SEA hands do?

TS may also request support for World Bank/ADB infrastructure loans. [redacted]
[redacted] Likely appropriate timing for discussion/support given expected WB/ADB arrears clearance by end of year.

B5

[redacted]
[redacted] They want to know exactly what we want them to do here. I said we can have that mtg in DC when they're in town early next week.
